

Not In Love

Olin & The Moon

Verse:

Let the sunlight in
You might never get this chance again
So take a deep breathe and hold it in
You should take a picture
'Cause you might never see me again
I said take a deep breath and hold it in

Chorus:

Because you'r not in love
There's no way you possibly could
You shouldn't even like this
You just like the way it looks
If this is the end, and what's done is done
Then I wont have to keep hurting anyone

Verse 2:

So let the wind take it's course over everthing
You have no control when it's out of your hands
You should take a minute for it all to settle in
I said take a deep breath and hold it in

Chorus:

Because you'r not in love
There's no way you possibly could
You shouldn't even like this
You just like the way it looks
If this is the end, and what's done is done
Then I wont have to keep hurting anyone

Verse 3:

Let the sunlight in
You better get as much as you can
'Cause you might never feel the same again
And take the wind, let it blow away everything
I said take a deep breath and hold it in

Chorus:

Because you'r not in love
There's no way you possibly could

You shouldn't even like this
You just like the way it looks
If this is the end, and what's done is done
Then I won't have to keep hurting anyone

Break then last chorus.
