

# Suffer

## 100 Demons

Slip and give a fake  
Let you feel a little stronger  
    My eyes awake  
    You think I'm rollin' over  
    You wonder how I feel  
    Now that you're under  
        You can't breathe  
        Can't hold it any longer  
        I'll, I'll make you suffer  
        Fear is your only reason  
            You never thought  
        That you'd see me in another season  
        Now I feel the need to make you suffer  
            Now you see the face  
            Of the one that took you over  
                You can't believe  
                How it ended up, you stumble  
                I'll never let you have a chance  
                    Now you wonder  
                    You can't breathe  
                    Can't hold it any longer

Fear is your only reason  
    You never thought  
    That you'd see me in another season  
    Now I feel the need to make you suffer  
        Fear is your only reason  
            You never thought  
        That you'd see me in another season  
        Now I feel the need to make you take it  
        Think what you want, I've always seen  
            The shade of your color scheme  
            I cut through your bullshit talk  
            I stomp on your \*\*\*\*\* up walk

Fear is your only reason  
    You never thought  
    That you'd see me in another season  
    Now I feel the need to make you suffer  
        Fear is the only reason

You never thought  
That you'd see me in another season  
Now I feel the need to make you suffer
