

# It's Huge

## The Dickies

King size XL double magnified  
Longer than the Rio Grande or a river twice as wide  
Bigger than the Beatles  
Better than the rolling stones  
All across the universe  
And light-years from home

It's huge  
My love for you is huge  
My love for you is huge

It's bigger than a bread box  
Deeper than the deep blue sea  
Longer than the china wall  
More than you and me  
Tougher than Godzilla  
Bigger than ol' King Kong  
Longer than the Texas state  
Bigger than this song

It's huge  
My love for you is huge

It's scaring me  
What's tearing me apart  
Is that I'm made to feel so small  
But when I see myself reflected in your eyes  
I'm ten feet tall

King size extra large quadruple magnified  
Longer than the Rio Grande or a river twice as wide  
Bigger than the Beatles  
Better than the rolling stones  
All across the universe  
And light-years from home

It's huge  
My love for you is huge  
Don't be afraid of it it's huge

My love for you is huge

It's huge

Huge huge huge...
