

Roller Boogie

Bisquit

I'm already seventeen
A pleasant dancing queen
I'm gonna buy some roller boogie skates

Don't you know I'm on the mail
These girls from states far sails
Please got some older boogie woogie skates

Don't you watch you may be five
I'm in the mood for drive
I'll find a pair of boogie woogie skates

I've got a place one part
These dates are skates no start
These rolling down the boogie woogie skates

Roller roller boogie woogie
Roller roller boogie woogie
Roller roller boogie woogie
It's the talk the town we won't let you down
Roller roller boogie woogie
Come along sing your blues away

You're a sketch don't let me down
Tricks them up a telling town
You can make it on my boogie woogie skates

You can skate along the mall
Pit and shoot the crocodile
There's nothing doin' on your boogie skates

You can rid'em off the beast
Let you find yourself a list
On ridin' down a boogie woogie skates

You can fight and win a war
Hopin' from the movie star
On boogie woogie rollin boogie skates

Roller boogie roller boogie woogie

It's the talk of the town we won't let you down
Roller boogie roller boogie woogie
Come along sing your blues away

Roller boogie roller boogie woogie
Roller boogie roller boogie woogie

I'm gonna buy some roller boogie skates
Please got some older boogie woogie skates
I'll find a pair of boogie woogie skates
These rolling down the boogie woogie skates

Roller boogie roller boogie woogie
It's the talk the town we won't let you down
Roller boogie roller boogie woogie
Come along sing your blues away
