

# Love Me Instead (Acoustic Version)

[Maira Dela Torre](#)

Oh my gosh  
You just walked past me  
Dreamed you just said you loved me  
My heart is down on one knee  
How do I move on from hereMy heart is missing a half beat  
I accidentally stepped on your feet  
Didn't know how was I supposed to feel  
Someone pinch me is this realHold me I'm falling  
Save me I'm drowning  
Baby just maybe  
Maybe you can love me instead  
Can't get you out of my head  
I want you here till the end  
Till all these fairytales come true  
Can you love me insteadCan't live just being your friend  
I'll hold your hand till the end  
Won't you hear me say I love you  
Again and again and again and again  
can you love me insteadCan't keep up you wont stop talking  
All I hear is you proposing  
Can you be my happy ending  
Maybe take a chance on meHold me I'm falling  
Save me I'm drowning  
Baby just maybe  
Maybe you can love me instead  
Can't get you out of my head  
I want you here till the end  
Till all these fairytales come true  
Can you love me insteadCan't live just being your friend  
I'll hold your hand till the end  
Won't you hear me say I love you  
Again and again and again and againYou walked away I couldn't remember  
What you said but I saw a number  
On a tiny piece of paper  
with "Maybe take a Chance on Me"Hold me I'm falling  
Save me I'm drowning  
Baby just maybe  
Maybe you can love me insteadCan't get you out of my head  
I want you here till the end

Till all these fairytales come true  
Can you love me instead Can't live just being your friend  
I'll hold your hand till the end  
Won't you hear me say I love you  
can you love me instead  
can't get you out of my head  
i want you here till the end  
till all these fairytales come true  
can you love me instead  
Oooh... Love me love me love me  
wont you here me say iloveyou  
again and again and again and again  
can you love me instead...
