

Beautiful Place

Enzyme Dynamite

Magic diamonds
the beautiful colors in the things I see
can you hear the silence?
it pushes me past the low land breeze
I hear you talking
your bodies surrounded
surrender surrender i'll take you there
I see you walking
Your making it hard for me
your pushing me away
your loves pushing me away
your love (x2)
is pushing me away
to a beautiful place
to a beautiful place
to a beautiful place

picture a stage coach
and the things burning up on all its sides
envision the same road
if you look you can see me on the other side
i'm out in the courtyard
look in the distance
you'll see me im coming im running
I see you waiting
your making it hard for me
your pushing me away
your loves pushing me away
your love (x2)
is pushing me away
to a beautiful place
to a beautiful place
to a beautiful place
