

# Run Through the Woods

## Desert Noises

Fixin' to run through the woods  
Leaving cause I know I should  
I know a good sign when I see one  
Wanted to be understood  
Tried in this town but I couldn't scream anymore  
At the voices inside of my head  
Next to the bed on my knees I said with a sigh Have to go  
Please don't try to stop me  
I know you can't save me this time  
Don't you want a new?  
So do I... I miss the afternoon breeze  
The way that it felt on my feet  
I could speak my mind  
I was just fine  
Saw who I needed to be  
Long dirty road made me see I'm a different man  
You could see it  
I know that you can Have to go  
Please don't try to stop me  
I know you can't save me this time  
Don't you want a new?  
So do I... (x2)
