# Velvet Days

## Kristin Hersh

Velvet days you make your little way
Pouring rain make that face you make my little day
I laugh till my heart drops down deep
You break your little freak, we break, don't we break don't we?Blush and knock your knees that's your girl breathing
I laugh till my heart stopsHold your shark skin thing that's your boy breathing
I laugh till my heart stopsBlush and breathe I laugh till I can't see
Down deep you break your little creep
I laughVelvet days you make your little way
Pouring rain make that face you make my little day
I laugh till my heart drops down deep
You break your little freak, we break, don't we break don't we?Listen, blush and breathe, that's your soul kissing
I laugh
