

# Roquefort

## Karnivool

You want to chase this rabbit down a hole  
You start to slide, and lose grip of control  
Make haste, it's time to ruin, or reward  
You say, give in, then, you beg for more  
    You'll bury this, slow down  
        It's all this system breeds  
    You'll bury this, slow down  
        It's time to make amends  
    Save your eyes for this place  
    Where I define you, myth, or desire  
    When it's true love, you held dear  
        Feel it rising  
So cut me to size, I'm losing shape through all this  
    You call me sublime  
    You know that's such a waste of energy  
Will I change your mind if I could show you my way?  
    A black stain on your heart  
    You know that's not what I wanna see  
You'll bury this, slow down, it's time to make amends

(Always in vain, now)  
    Save your eyes for this place  
    Where I define you, myth, or desire  
    When it's true love, you held dear  
        Fear your horizons  
You want to chase this rabbit down a hole  
You start to slide, and lose grip of control  
Make haste, it's time to ruin, or reward  
You say, give in, and then, you beg for more  
    You'll bury this, slow down  
    It's time to make amends, I crave you  
        Set your eyes on this place  
    Where I define you, myth, or desire  
        When it's true love, you feel  
    Save your eyes for this place  
    Where I define you, myth, or desire  
    When it's true love, you feel, here  
        Feel it rising
