

# All of the Drugs

## The Brobecks

Advisory - the following lyrics contain explicit language:

All of the drugs, she takes at night,  
Keep her awake, Give me a fright,  
I don't know what goes through her mind,  
When she takes drugs.All of the lies she tells herself,  
Won't be believed by anybody else.  
And I can't buy just what she sells,  
When she tells lies.And she takes her pills, And she tells her lies,  
And she breaks my heart, and breaks her word,  
But I still act sur-, surprised.Every kiss she gives away, might be a good time,  
But you know, the sad thing is the boys all say,  
She's something of a slut.And she takes her pills, and she tells her lies,  
And she breaks my heart, and breaks her word,  
But I still act surprised.
