

# Gravity (feat. Matthew Koma)

Cazzette

I wake up and point you to the sun  
Our colors will bleed for most of all  
A shadow the stranger you become  
You can run When you're too far from a feeling  
I'll be your floor and ceiling  
If you hold back from believing  
I'll pull you home Tell me if you find your way to lonely  
Tell me if your stars are shining for me  
Tell me if your heart is falling out of reach  
Tonight I'll be your gravity Tell me if you find your way to lonely  
Tell me if your stars are shining for me  
Tell me if your heart is falling out of reach  
And I will be your gravity  
[DROP] And I will be your gravity  
And I will be your gravity A siren can't sing without a word  
A language around the universe  
And you have alarms on every nerve  
So I'll know first When you're too far from a feeling  
I'll be your floor and ceiling  
If you hold back from believing  
I'll pull you home Tell me if you find your way to lonely  
Tell me if your stars are shining for me  
Tell me if your heart is falling out of reach  
Tonight I'll be your gravity  
Tell me if you find your way to lonely  
Tell me if your stars are shining for me  
Tell me if your heart is falling out of reach  
And I will be your gravity And I will be your gravity [DROP]  
And I will be your gravity  
And I will be your gravity
