

# Metal Queen

## Arkham Witch

She is not the girl you're expecting  
When you're dressed-out to kill  
You may find she looks fantastic  
And you're ready for a thrill  
You will find her mind's kinda poisoned  
You will find her blood's like ice  
Oh, danger in my eyesMetal Queen  
She's gonna break your heart  
Oh, till your ambitions collide  
Metal Queen  
She's out in the dark  
Oh, don't fall in love tonightShe will look at you like a flashlight  
And she will embrace you like steel  
She will whisper words like weapons  
Cutting wounds that never heal  
Better run away when she is smiling  
Don't ever fall in love  
Cause, oh, she never gets enoughMetal Queen  
She's gonna break your heart  
Oh, till your ambitions collide  
Metal Queen  
She's out in the dark  
Oh, don't fall in love tonight
