

Best Friend

Cheap Trick

When the moon came up
And the sun went down
All I could see was a national frown
It was pounded flesh
And harder than steel
Pretty in pink that's just how I feel
Leave me alone cause I'm my best friend
If you wanna be with me I'll be there til the end
Til the end of time and time again
Just leave me alone cause I'm my best friend yeah yeah
Cause I'm my best friend now
Cause I'm my best friend now All I got is might and will
If all I got is might and will
Can't slow down cause down we'll go
Where I stop you don't wanna know
Round and round and round we'll go
Where I stop is where I wanna go
Go go go go
Where I wanna be is where I wanna go Lofty thoughts and high ideals
Lofty skirts is what appeals
This baby is no baby ruth
He was too smart for her
She was so damned cute
I'm sick and tired can't be late
So damn mad I can't keep straight
Time and time and time again
Leave me alone cause I'm my best friend yeah
Leave me alone cause I'm my best friend yeah I'm my best friend yeah
I'm my best friend yeah
I'm my best friend yeah
