

# God Bless and Goodbye

## Morcheeba

Questions are never answered  
Glances you'll always miss  
Too ready to push and pamper  
You just took the glory You thought you stole my thunder  
I had to snatch it back  
You failed to take me under  
I hit the bottom and bounced right back Oh, what can happen now  
I won't cave in  
My heart will open out  
With love Caught in a struggle  
Goodness, I've tried  
You're such a puzzle  
I guess, God bless and goodbye This ain't a proposition  
Can you clear out your desk?  
Someone in my position  
I'd rather take a risk Oh, what can happen now  
I won't cave in  
My heart will open out  
With love Caught in a struggle  
Goodness, I've tried  
You're such a puzzle  
I guess, God bless and goodbye In a struggle  
Goodness, I've tried  
You're such a puzzle  
I guess, God bless and goodbye Caught in a struggle  
Goodness, I've tried  
You're such a puzzle  
I guess, God bless and goodbye In a struggle  
Goodness, I've tried  
You're such a puzzle  
I guess, God bless and goodbye I guess, God bless and goodbye  
I guess, God bless and goodbye  
I guess, God bless and goodbye
