

# Johnnie Comes Back

James Taylor

All last week and half of today  
Johnnie has been a good little girl  
Trying to keep her devils at bay  
Watching her health return  
But she always comes back for more  
Hanging her head and banging my door  
Johnnie comes back again(chorus)  
I said, johnnie remember  
Oh johnnie be good  
"please give me some medicine man"  
Oh johnnie comes back again Where'd she get that tear in her eye  
Whoever said she could leave me  
Where'd she learn to say good-bye  
She's been watching too much t.v.  
She only shows up for meals  
My medicine chest and my automobiles  
Johnnie comes back again- chorus -Me I'm just an evil demon  
I'm playing on her weakness  
Counting on her sickness  
To bring her home again To use me up and to rob me blind  
I guess it shouldn't surprise me  
Fighting and flashing like a fish on a line  
My god, she must despise me  
But she always comes back again  
Now it won't be long 'til she's gone again  
Johnnie comes back again- chorus -
