

Think I Need It Too

Echo & The Bunnymen

Must've forgotten something
How to forget how to be true
Covered myself in nothing
Don't touch me and i won't touch you
Tryin' to remember something
Why am I here and who are you?
You must admit something
Animals came in two by two Whatever you want
Whatever you need
Whatever you want
Whatever you need
I think I need it too
I think I need it too
I think I need it too Just as I thought I'm thinking
How can I change when I don't want to
Kept getting caught
Kept drinking
How can I blame what I got to
Putting the wheels in motion
Autopilot I can't drive
Covered in chalomine lotion
Scratching my ?? bee stung Whatever you want
Whatever you need
Whatever you want
Whatever you need
I think I need it too
I think I need it too
I think I need it too
