

# What Goes Around Comes Around

## Dover

Walking through a wall of glass  
The world is pushing me down  
What goes around comes around  
The world is pushing me down

Into that I've been making  
That I've been really breaking  
It's really hurting me bad

Though I have been training  
I haven't really made it  
And now it's hurting me bad

Oh oh oh no  
You bet  
Oh oh oh no  
I'm not insane

Walking through a wall of glass  
The world is pushing me down  
What goes around comes around  
The moving's bringing me down

Wishing things would turn around  
The guilt is bringing me down  
Walking through a wall of glass  
The world is pushing me  
It's just pushing me down
