

Get Out of My Mind

[Ags Connolly](#)

Get out of my mind
Take your things and be gone
You've wasted my time
You stayed too long

Don't make a sound
Don't leave any sign
Just put your key down
Get out of my mind

You could blame me
'Cause I let you in
Or because I played a game
That I couldn't win

How did it start
It became so unkind
It damaged my heart
So get out of my mind

It could still be
That you're feeling the same
Or maybe that idea
Is only in my brain

As foolish as it seems
If I think of you late at night
I'll continue to dream
So get out of my mind

The only thing that could change me
Get out of my mind
