Advisory - the following lyrics contain explicit language:

So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town So lock it up, lock it up
Because we're on our way now
And if we see one light on
This town is going down Now do you see what I see?
This place is looking so very tasty
And I think I smell, yes, I smell
A golden opportunity So when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or not So when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or not So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
Blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town I don't know how far we came
But it's time to leave
That's always a shame
The pleasure was all mine if it's all the same We're on the road you see
We're not on MTV
But when we get there
We won't shave our hair or be fags like Creed So when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin

Whether you're ready or not So when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or not So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
Blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
Blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
