

Stay Close to Me

Margaret Becker

Lately I've been finding
Comfort in this truth
I am just a child of need
Who's found her hope in YouStay close to me
Stay close to meLately I've been quiet
Remembering who You are
Fascinated with the love
You've shown to me this farStay close to me
Stay close to meNever leave me, never go
I need You here, I need to know
You will always be close to me, stayLately I've been finding
Comfort in this truth
I am just a child of need
Who's found her hope in YouStay close to me
Stay close to meNever leave me, never go
I need You here, I need to know
You will always be close to meStay close to me
Stay close to me
Stay close to meStay close to me
Close to me
Stay close to me, stayNever leave me, never go
I need You here, I need to know
You will always be close to meClose to me
Stay close to me
Close to me
