

# Low Flyin' Bird

Cass McCombs

Flying over the sun, escaping with a singed ass-feather

Crazy bird, plunging fast toward the concrete nether

Death defying

Ain't think much of trying

Just flyingLow

Low flying bird

Don't scrape your beak

Low flying bird, don't sink

Let me ride

Over the canyon wide

Let me ride

Low flying bird, don't dive

A bird called Where, searching for her dismembered love

Lighting striking all around, traveling from the way above

Boy that's looks like fun

Until the day is done

Fly

Low

Low flying bird

Don't scrape your beak

Low flying bird, don't sink

Let me ride

Over the canyon wide

Let me ride

Low flying bird, don't diveAll my dreams I'd burn to fly

Wind falling out the clear sky

Mistle and a kiss goodbye
