Dragonfly

Ellis Paul

Who let the dragonfly into my bedroom
Was it you?
'cause it's buzzing 'round my head like a hurricane
Was it you?Moonlight on my window sill
Did it fly from the cornfield or up over the hill?
'cause it's buzzing round my head
And got me spinning here.
Was it you?I don't know why you
I don't know why you
I don't know why you
Came to meRed dress on my doorstep
Honeysuckle blooming
Through the front porch screenPerfume on my pillowcase
Empty bed in an empty roomThere's a dragonfly flying
And a red dress hanging from the moon
