I've Had Enough

Conflict

This is mankind and mankind kills
You think that women are just here for thrills
Your filthy morals just fucking stink
Don't try and get my hands in your sink
Don't call me your "bird"; I'm not your pet
Well, I've had enough, right up to my neck

This is mankind and mankind kills
Why should women be raped at your will?
This is mankind and mankind kills
Why should women pay for man's thrills?

Why don't you get married?
Wear that wedding ring?
Can't she see it's the only respectable thing?
She'll cook his meals
Sleep in his bed
Do anything he says
