## Vincent Liou

I bought a video cam  
My girl, she don't understand  
    What it's like to be liked  
Well, she told me that she loved me  
    And I saidViral  
    All I want is to go viral  
    All I want is to go viral  
All I want is to go viralPewdiepie, I heard he's a great guy  
Playing games is what I wanna do  
    Tomorrow is a brighter day  
    Baby all I want is to goViral  
    All I want is to go viral  
    All I want is to go viral  
    All I want is to go viralAll that matters is now  
We can make it our nightCould I define my own dimensions  
    The space I'm taking up has me looking down  
    Goodbyes, goodbyes are all I'm good for  
    What do I say, when you're gone?
