

Walk Away

Five Finger Death Punch

I'm sorry for the demon I've become
You should be sorry for the angel you are not
I apologize for the cruel things that I did
But I don't regret one single word I said Just walk away, make it easy on yourself
Just walk away, please release me from this hell
Just walk away, there's just nothing left to feel
Just walk away, pretend that none of this is real Forgive me if I told you that I cared
Would you be sorry if I swore that I'd be there?
Please forgive me for laughing when you fall
I'm so sorry but I never cared at all Just walk away, make it easy on yourself
Just walk away, please release me from this hell
Just walk away, there's just nothing left to feel
Just walk away, pretend that none of this is, none of this is
