Edguy

[Music & Lyrics: Sammet][solo: Shuttle-crash suite in F-Major, Marsian Traditional]The sound of explosions, the children awake
The turn of the tide acts up, the ground it starts to quake
A pile of dented steel, in fear I realize
Behind the shuttle's windshield two evil shinig eyesHighspeed alien drum bunny - Highspeed alien drum bunnyHandcuffed they take the stranded straight into their lab
Examine him, his DNA, what you give is what you will get
He takes his magic carrot, a bang and drums appear
He starts to play like thunder, mandkind flee to save your hearingHighspeed alien drum bunny - Highspeed alien drum bunnySave us now, somebody - Save us now, someone
From highspeed A.D.B.
Save us now, somebody - Save us now, someone
From highspeed A.D.B.Bum Bum Bunny B., life is a drag I can tell
But let me count to four and then you play the roll of hell
One, two, one, two, three, four...[hoplle-roll of hopple-hell bu the protagonist]
