

# Waiting Room

## No Doubt

I sign in my name  
I guess, I have to wait a while  
I'm gonna play this game  
Call me up if you know how to dial You always had my number  
You need to be my lover  
Humiliation  
I'm in the waiting room If we both want the love and I wait long enough  
Then the ground that we're on might be coming All I can do is wait for you  
All I can do is wait for you I'm all alone in the waiting room  
I'm all alone  
I'm all alone in the waiting room When you burn in solitude  
It can get real thick  
If desire is your only food  
It can get you sick You know you're so fine  
(So fine)  
I'm over here standing in this line  
(Just a' waitin')  
Just a' waiting in the waiting room If we both want the love and I wait long enough  
Then the ground that we're on might be coming All I can do is wait for you  
All I can do is wait for you  
(All I can do) I'm all alone in the waiting room  
I'm all alone  
I'm all alone in the waiting room While I'm in the waiting room  
A thousand thoughts I think of you  
Whatever you did, it's got me glued  
It's icky, it's sticky, ooh You're the one I'm dreaming of  
Why does this feel like wasted time?  
Wasted time  
What a price  
What a price is traveling love?  
Traveling love  
You and me trapped between these lights  
Ooo, you're so mine If we both want the love and I wait long enough  
Then the ground that we're on might be comin' All I can do is wait for you  
(I'm just waiting for you)  
All I can do is wait for you  
(You know you want me) All I can do is wait for you  
(You always had my number)  
All I can do is wait for you

(You know you need to be my lover) All I can do is wait for you

(All I can do)

All I can do is wait for you Wait for you, wait for

Why are you making me wait?

Oh, why are you making me wait?

Oh I'm all alone in the waiting room

I'm all alone

I'm all alone in the waiting room

I'm all alone in the waiting room

I'm all alone waiting I'm all alone in the waiting room

(Will you call me when it's my turn?)

I'm all alone in the waiting room

I'm all alone

I'm all alone in the waiting room

Will you call me when it's my turn?
