

White Lies (feat. Chloe Angelides)

Vicetone

Calling my bluff like it's your own
I'm crawling on the floor beneath your throne
Take my hands and wash them clean again
And they say I and they say I
Breathe in the truth
Exhale the lies
And they say I and they say I again
And they say I am the liar
Oh, but white lies is fire
And they say I
Over my tongue in through my teeth
I have a way with words, you see
They say I'm the liar
Tugging not to sleep but you hold still
I'm trying to break free against your will
Right back at the starting line again
And they say I and they say I
Breathe in the truth
Exhale the lies
And they say I and they say I again
And they say I am the liar
Oh, but white lies is fire
Over my tongue in through my teeth
I have a way with words, you see
They say I'm the liar
And they say I
