Double Date

Nikola Gala

Me and my buddy went on a double date
I was feeling great, I could hardly wait
I got my lovin' baby and introduced my friend
He fell for her, she fell for him
On a double date, on a double date
Now my baby's gone, I'm all alone
All because of a double date, of a double date
Then my one time buddy went on a double date
He was feeling great, he couldn't hardly wait
He got my loving baby and introduced his friend
Ha ha, and then that was the end
On a double date, on a double date
Now my baby's gone, I'm all alone
All because of a double date, of a double date
Of a double date, of a double date
