Evermore

Steel Pulse

Ya told me your love
Would be would be secure
Ya told me that you would
Not ever think of walkin
Through that door
You said as long as the wheel
Keeps on turning around and round
And with every breath that you take
Baby you said your love yeah is
Gonna last for EvermoreI asked you if you stop lovin me
Just tell me so
I asked you not to let me be
The last one to know
Right now I feel hurt
Seems everything that you
Said were lies
Why couldn't you tell the truth now
Baby you said your love yeah
Is gonna last for Evermore
It's gonna last for EvermoreOh oh oh nothing
Empty words ya said that cut deep into meOh oh oh but I know better
Now I know that times are changing
And it hurts and I must look ahead
I felt you used me
I feel a fool still
All that you've left me
Is hurt and painful memories
But baby it's funny
My love yeaj is gonna last for Evermore
Evermore Evermore
