Take Heart

The Sam Willows

Take heart, the world is ours
Run high and fast now they're coming for us
Take heart, we'll fight the hours
Fall back in light running through the forestOh you're everything to me
Loved you ever since the day we parted
Oh you're all that I can see
Don't you ever leave me broken hearted
Oh, Oh, OhBut you didn't know she wasn't told
This life is just too old
People walking come and go
They don't know you they're so cold
Why, why bring me down
I've got nothing to frown
Just a kid this ain't your town
Take that walk and goBut you didn't know she wasn't told
this life is just too old
People walking come and go
They don't know you they're so cold
Why, why bring me down
I've go nothing to frown
Just a kid this ain't your town
Take the walk and turn around(music)Take heart, this world is ours
Run high and fast now they're coming for us
