

I Wanna Know About U

The (International) Noise Conspiracy

Wanna know about your little secret
I want to know why we're not equal
Wanna know about the great pyramids
I want know what just they really did
Wanna know about the Tiananmen Square
And names and faces of those who died there
Wanna know about the Communards
Riot in Paris where the action was
I wanna know about you
I wanna know about you
Wanna know about 1939
Spanish anarchists in our time
Wanna know about the young pretenders
I want to know about what it meant
Wanna know about the soulrebels
The allnighters in every weather
Wanna know about the books your reading
I wanna know about the blood you're bleeding
I wanna know about you
I wanna know about you, damn
Wanna know about your secrets
I want to know why we're not equal
Wanna know about my sisters and my brothers
Why we miss each other
Wanna know about the burning fire
'Cause deep inside I have that desire
Wanna know about the soulrebels
Wanna know the allnighters
About the city and why fight it
Wanna know about the sound
Coming from the underground, all around yeah
Wanna know, I want, I want, I wanna know
Wanna know, I want, I want, I wanna know
Wanna know, I want, I want, I wanna know
