

# El Caminos In The West

## Grandaddy

So there's my baby  
Laughing at me in the sun  
Wonder if I'm the weaker one  
I feel so far away from home  
Always so far awayThe Pacific will pacify us when we're done  
If only we weren't always spun  
I feel so far away from home  
Always so far awayFrom El Caminos in the west  
All collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happiness  
El Caminos in the west  
We're all collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happinessDoo doo dooHere comes the chaos  
Perfectly on time again  
Is it ever gonna end  
I feel so far away from home  
Always so far awayThe demolition still can be a lot of fun  
Someone should tell me that I'm done  
I feel so far away from home  
Always so far awayFrom El Caminos in the west  
All collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happiness  
El Caminos in the west  
We're all collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happinessDoo doo doo
