

Delirious

Emilia de Poret

So whatcha trying to do
I thought I made it clear to you
That you can't act like that
So flip the script on that I don't wanna see you round
I know the way you put it down
So boy do you understand
You ain't never gonna be my man So just forget it ain't going down
There ain't nothing you can say right now
You must be tripping cause you got it wrong
Need a man, not a boy,
so baby you just gotta move along [Chorus]
I don't think so, boy don't you know
You can't be serious
Better back down don't you come around your shut down
Your delirious
I don't think so, boy don't you know
You can't be serious
Back up off me I think
Your delirious There just ain't no way
that you're gonna play your pimp game
I know that you want it, you want it,
but you're not gone. Get get on it Come on and back it up
that is it I've had enough
So when you see me walking
that means that you stop talking So just forget it ain't going down
There ain't nothing you can say right now
You must be tripping cause you got it wrong
Need a man, not a boy,
so baby you just gotta move along [Chorus]
I don't think so, boy don't you know
You can't be serious
Better back down don't you come around your shut down
Your delirious
I don't think so, boy don't you know
You can't be serious
Back up off me I think
Your delirious I don't know what you're thinking
because you must be out your mind
There just ain't no way you're gonna get with me

I'm just fine with the single life[Chorus]
