

# Test Pilot (Chilly Gonzales Re-Make)

## TV on the Radio

Hope it isn't broken, try to keep it open  
But I couldn't hold it, smashed it down for all to see  
And I tried to get repairs done, I couldn't fix it  
So I picked it up and smashed it down for all to see But I remember when we were so cool  
And you were the only one  
And now I know that I was such a fool  
Thinking you're the only one (And now we are) We are high and we are fine  
(And now we are) And we are gliding through the things that tear us apart  
(And now we are) We are high and we are fine  
(And now we are) And we are going to need the strength  
It takes to pave the way and be the first test pilot Now we're stumbling through the motions, criminal and  
careless  
Thought you were my best friend, now I couldn't care less, come to see  
And you're playing my emotions, way out of proportion  
Damage and distortion, blasting through your fantasy Oh, but I was such a fool  
Thinking you're the only one  
It didn't have to be so cruel  
Thinking you're the only one I know that we get down  
But we can't touch the ground  
Look up, fall into sky  
Going at the speed of sound  
One circle back around  
Straight on, test pilot, fly (And now we are) We are high and we are fine  
(And now we are) And we are gliding through the things that tear us apart  
(And now we are) We are high and we are fine  
(And now we are) And we are going to need the strength it takes to pave the way (And now we are) We are high  
and we are fine  
(And now we are) And we are gliding through the things that tear us apart  
(And now we are) We are high and we are fine  
(And now we are) And we are going to need the strength  
It takes to pave the way and be the first test pilot
