Go Too Far

Jibbs

Yeah, yo this another Big Big Kid
Exclusive right here baby, Beatster Music
I?m gone slow it down foe the ladies right here
All you gotta do is wait a while
Let?s wait a while before it's too late
Let's wait a while our love would be great
Let?s wait a while before we go too far
We can slow it down wait around for a minute
And pick dis hang back up so we can get wit it
You know I?m feeling you gurl but I'm just sensing
That ya wanna get wit me and now I?m feeling tension
We can hit the mall sometimes throw me them digits
So we can floss a little ride wit me in my Bentley
Coordinated clothes true religion true religion
Then hit up the Hampton's and spend a they in Venice
But we can do dis all just as soon as I finish
I know you don?t like dis but gurl this is the business
As soon as I get some time den we can start chillin'
But right now the boi is on a mission fa million so
Let?s wait a while before it's too late
Let's wait a while our love would be great
Let?s wait a while before we go too far
It's crazy all the things she do to try to get wit me
Always trying to get me say she flyin' to my city
She doing anything just to get my attention
But I gotta lot to do gurl just wait until I?m finished

When I came asked her she be blowing up my phone
Trying to hang wit my sista err time I?m gone
Err time ya gone? Yeah, err time
I?m gone trying to get next to the people in my home
And now ya tryin' to Brush it off tryin' to paint the picture
But at the same time yo know I wanna get wit cha
You gotta understand me gurl I?m trying to get this paper
So if ya understand me den do me dis favor and
Let?s wait a while before it's too late
Let's wait a while our love would be great
Let?s wait a while before we go too far
See I be feeling you I know that chu be liking me

You can come take a ride it's alright wit me
If you try to act like I was just watching you
I know you like this
See I be feeling you I know that chu be liking me
You can come take a ride it's alright wit me
If you try to act like I was just watching you
I know you like this, baby
Let?s wait a while before it's too late
Let's wait a while our love would be great
Let?s wait a while before we go too far
Let?s wait a while before it's too late
