

Paradise

[Aldo Nova](#)

There's a place not far from here
With a different atmosphere
It's a world where there's no darkness
Close your eyes and you will see
It's a world of fantasy
Let's leave reality behind us 'Cause Paradise - I'll take you there, whoa, yeah
Just close your eyes and have no fear
'Cause Paradise is here, yeah
There's a place not far from here
With a different atmosphere
Let's leave reality behind us 'Cause Paradise - I'll take you there, whoa, yeah
Just close your eyes and have no fear
'Cause Paradise is here
