

Static End

Paul Chain

Velvet chariot, through my chaos ride
Through manifestation in realms of eight
Galactic snake in writhing universe
In static pain mother sky, you are immersed

Hanging cloud reflect the pain
Isolate the world profane

Infernal nothing - Static end
Numb elation in chains of gold
un-coiled emptiness behold

Enigmatic wander, you strangle me
A frozen soul beneath the tree, the tree of living dead
Screaming church - sight of remains
Disgusting glass houses the pain
Rhetoric sale of vital gain

Infernal nothing - Static end
Lose birth, end-time begin
un-coiled emptiness behold

Seething Rapture in euphoric grey
The golden knife in mesmeric flames
The timeless hearse earths soul rides in
A motionless drive through joys killing dawn
In the evil end again reborn
Dimensionless slaves to the magic gone

Infernal nothing - Static end
Lose birth, en-time begin
Numb elation in chains of gold
Un-coiled emptiness behold
