

American Made

Fall Out Boy

Yea..When I was younger I couldn't wait for the days to pass
Now I know they'll never last
And I just want my childhood back
I just want my childhood dad
I-I just wanna take it backCar go hand to spare
All American made
Let's see who burns the truest in the flame
Car go hand to spare
All American made
Let's see who burns the truest in the flameWhen I was younger I couldn't wait for the days to pass
Now I know they'll never last
And I just want my childhood back
I just want my childhood dad
I-I just wanna take it backCar go hand to spare
All American made
Let's see who burns the truest in the flames, yea!Whoo! Fuckin' flames.
