

# Outside

## Sleepy Sun

Outside we can leave our clothes  
As vanity carries heavy loads Tie the lights, tie them coast to coast  
Never fray till the rock explodes  
If we could understand  
All that hes planned to hide from us  
would you wonder  
Wander closer to the edge of the mind All the tides, hold you just a float  
Like memories showing you love lost If we can ask the man  
How long hes planned to hide the world will you wonder?  
Wander faster to the edge of our life  
wander closer to the edge of our life  
wander closer to the edge  
Closer to the edge of our mind.
