

Is That Who I Am (feat. Chris Carmack)

Nashville Cast

I've always been broken underneath my smile
So you think that I was happy all the while
If I'm being honest I didn't stand a chance
Is that who I am? Staring at my saddle for way too long
If I never did nothing then nothing could go wrong
I've always been singing, I never had a song
Is that who I am? *Chorus*
I see big bright lights burning in the atmosphere
Calling my name, calling my name
Sayin' I don't have to be the way I've been
And I still gotta lotta soul underneath my skin
And it's calling my name, calling my name
Is that who I am? Am I just the lone soul blowing in the wind?
Or a coward scared to look within?
Or do I have a brave heart with a light so dim
Is that who I am? *Chorus*
I see big bright lights burning in the atmosphere
Calling my name, calling my name
Sayin' I don't have to be the way I've been
And I still gotta lotta soul underneath my skin
And it's calling my name, calling my name
Is that who I am? Sayin' I don't have to be the way I've been
And I still gotta lotta soul underneath my skin
And it's calling my name, calling my name
Is that who I am?
