chasing

Morbin

Sometimes I lie awake and see,
My imperfections, they run so deep,
I'll close my eyes and start a prayer to You,
No matter how ashamed, You meet me there,[Chorus:]
How can You love me when I won't stand beside You,
You just keep chasing after me,
Why do You give me grace when I have no place to keep it,
You just keep chasing after me,In darker times I've tested Thee,
I've run long and hard to find Your end,
No matter how far or fast I go,
Your always waiting to wrap your arms around me,[Chorus](How can you Love?)How can You love me when I won't stand beside You,
You just keep chasing after me (How can You love?)
Why do You give me grace when I have no place to keep it,
You just keep chasing after me (How can You love?)How can You love me when I won't stand beside You,
You just keep chasing after me (How can You love?)
Why do You give me grace when I have no place to keep it,
You just keep chasing after me
You just keep chasing after me
You just keep chasing after me
You just keep chasing after me
