

# You

## Bonnie Raitt

Nobody else could make me happy  
No one could hurt me like you do  
You were the only one that mattered Then you were gone, love had moved on  
Left me alone thinking of you There was never any other  
You and I were created to be true Isn't it love that keeps us breathing?  
Isn't it love we're sent here for?  
Wasn't that love that we were feeling?  
Something baby Deep in our soul, deeper than we know  
Keeping me holding out for you There was never any question  
You'll be forever on my mind  
You and I, we were meant to be together  
True hearts in a world where love is dyin' I might as well have been dyin', we were apart  
When you came back I felt the beating of my heart You and I, there was never any question  
You'll be forever on my mind  
You and I, we were meant to be together  
You, it was always you, only you, yea baby  
Always you
