

# Blackout

## Heatmiser

Asking, permission denied  
To self medicate this way once in a while  
Aren't you afraid of everything  
Your love so ? ? ? you can't appreciate anything  
Down on the sofa with a record running  
Baby I can't help letting you down  
Letting you down  
Letting you downGot your rejection, denied, crying  
Coming apart right here before your eye  
You aren't disappointed, are you now  
I'm still listening, just tell me what you want  
I won't feel a thing, just tell me what you want  
Leaving you alone wasn't my decision  
Baby it's not easy letting you down  
Letting you down  
Letting you down
