

Born On Christmas Day

[Brad Paisley](#)

It was a cold and dark December night but a star still lit the sky
Away in a manger you heard a baby cry
It was the cry of the Son of God a little baby boy
Born in that manger to bring the world joy So hush up little baby
You know not what You'll do
You'll bring the world peace and love
And teach them while You do You have nothing to fear because You know
God is with You all the way
That little important baby
Born on Christmas day Many people soon gathered round that tiny run down barn
They knew not of what they saw
And then came three all dressed in fancy robes, silks and furs
This was the first indication of the importance of His birth So hush up little baby
You know not what You'll do
You'll bring the world peace and love
And teach them while You do You have nothing to fear because You know
God will lead the way
That little important baby
Born on Christmas day We expected a soldier to save us from our plight
All dressed in shiny armor, ready for a fight
But instead He sent a little baby boy
All filled with love happiness to bring the world joy So hush up little baby
You know not what You'll do
You'll bring the world peace and love
And teach them while You do You have nothing to fear because You know
That God will lead the way
That little important baby
Born on Christmas day That little important baby
Born on Christmas day
