

# Happy Again

## Eureka California

I can't believe I'm stuck here in the room  
When I look out my window at night I don't see the moon  
But I'm happy to be happy again I've been pitching the idea ever since I was 22  
And the calendar says I'm almost 26  
Well that just can't be true  
But I'm happy to be happy again And this trickles up and down my spine  
Like grains from an hour glass  
I know it will pass I tried to leave the house but there was no use  
I declined to stay in bed cos it seemed like something I could do  
Still I'm happy to be happy again
