# Incommensurate

## Tourniquet

The fallacy impinging on mankind
Prevalent throughout aeons
Good and evil equally matched
Sicker yet, that perniciousness will reignSatan, a dog on a leash
Subject to the will and restrictions of the Father
IncommensurateLucifer, Mephistopheles, the Serpent, Belial
Brought to life by the great I AM as an angel of light
Pride, his downfall, cast down from Heaven
Cursed to eat the dust of the earthThe tempter was created by a God you deemed fictitious
In a book that you call lies - make up your mind
Prevaricator, larcenist, blinder of the world
Deceiving fallen man into knowledge of the damnedObvious now, the notion absurd
Incommensurate
The leash is short but not for long
Permanent incarceration imminentAgnus dei, the lamb Of God defeated sin and grave
His death and resurrection
His plan in sovereign graceY el diablo que los engaaba fu lanzado al lago
De fuego y azufre, donde tambin
Estn la bestia y el falso profeta
Y all sern atormentados da y noche
Por los siglos de los siglos...
