Stronger Than All

HammerFall

Always standing proud
We know our time has come
Marching off to war
The crusade has just begun
Fighting for the right
To live under the sun
We won't stop 'til they've lost
And we've wonCome and fly with us
Together as one we belong
This magic of metal unites us
It's making us strongLike an arrow, we strike
(Stronger than all)
Heavy metal troops on the rise
Like an arrow of might
(Stronger than all)
We'll walk through fire
We're true to ourselves and our livesHistory commits
The oath to deal in steel
Warriors of the faith
To no livin' soul we kneel
Born into the fold
The templars are for real
No one will ever bring us to heelCome and fly with us
Together as one we belong
This magic of metal unites us
It's making us strongLike an arrow, we strike
(Stronger than all)
Shooting through the air at full speed
Like an arrow of might
(Stronger than all)
In the name of metal
Defending our hopes and beliefsThe past and the present unites in us all
We stand up for our beliefs
The way of the templars is here once again
Forever they will be freeLike an arrow, we strike
(Stronger than all)
Heavy metal troops on the rise
Like an arrow of might
(Stronger than all)

We'll walk through fire
We're true to ourselvesLike an arrow, we strike
(Stronger than all)
Shooting through the air at full speed
Like an arrow of might
(Stronger than all)
In the name of metal
Defending our hopes and beliefs
