

# Wake Up

## Lostprophets

So are we lost or do we know  
Which direction we should go  
Sit around and wait for someone  
To take our hands and lead the way 'Cause every day we're getting older  
And every day we all get colder  
We're sick of waiting for our answers Wake up, wake up, wake up  
Yeah, I'm so tired of waiting, waiting for us to  
Wake up, wake up, wake up  
Yeah, I'm so sick of waiting for us to make a move Are we meant to take the pain?  
Should we sit around and wait?  
Are we being saved or was I another lie  
You made to make us hate? 'Cause every day we're getting older  
And every day we all get colder  
We're sick of waiting for our answers Wake up, wake up, wake up  
Yeah, I'm so tired of waiting, waiting for us to  
Wake up, wake up, wake up  
Yeah, I'm so sick of waiting for us to make a move Wake up, wake up, wake up  
And we will never lose  
Wake up, wake up, wake up  
It's time to make a move Wake up, wake up, wake up  
And we will never lose  
Wake up, wake up, wake up  
It's time to make a move It's not enough to let it run  
Just wait until it's over  
Were sick of waiting for our answers Wake up, wake up, wake up  
Yeah, I'm so tired of waiting, waiting for us to  
Wake up, wake up, wake up  
Yeah, I'm so sick of waiting for us to make a move Wake up, wake up, wake up  
And we will never lose  
Wake up, wake up, wake up  
It's time to make a move Wake up, wake up, wake up  
And we will never lose  
Wake up, wake up, wake up  
Make a move
