Here Come The Blues

Nick Drake

Monday is shining, you know 'em Tuesday's rain
Well, the days go by me like a southbound train
Yes, it's funny thinking you will never call my name
Here comes long lonely, here come the bluesWell, the world's the same old comedy, you know my time is cold
Nothing new, blue lady, I won't get old
'Cause the deal is gone now, I'd just better hold
Here comes long lonely, here come the bluesWell, sun has run down, she has gone out to hide
Yes, and now I'm out walking where the midnight ride
Just me and the good time Charlies and the suicide
Here comes long lonely, here come the bluesWell, Monday's dry, yes, and Tuesday's just the same
Maybe come down blue Wednesday, I'm gonna grab the brakes again
'Cause no bottle of pills could ever kill this pain
Here comes long lonely, here come the blues
Here comes long lonely, here come the blues
